9/16	<p>1. No. I am able to continue my work how I need to</p> <p>2. I read over the work items necessary for Milestone 1 and researched them</p> <p>3. Tomorrow I will begin researching how to properly do the Tech Spec</p>	<p>1. No. Our proposal has not been accepted yet, but we just need to make some revisions and we can still start preparing for Milestone 1.</p> <p>2. Went over old proposal and professor feedback. Went to office hours to ask questions about features and get clarification and advice.</p> <p>3. Tomorrow I will start look the BRD, and proposal, and any of the other work items for Milestone 1.</p>	<p>1. No. I understand what I need to do</p> <p>2. I went into office hours to clarify some questions i had on proposal</p> <p>3. Tomorrow i will look into site map</p>	<p>1. A little, but just more research needs to be done.</p> <p>2. Looked into project as a whole, nothing concrete as of yet.</p> <p>3. Tomorrow I will research HL Design more in depth.</p>
9/17	<p>. Not necessarily, as I will continue research and clarification before beginning the actual documentation</p> <p>2. Viewed definitions and example documents of technical specifications</p> <p>3. Tomorrow I would like to gain clarification with Vong on the definition of a tech spec so I can begin</p>	<p>1. Yes, my resources didn't have much on a BRD, and I'm not sure the things I found online are appropriate/what the prof wants.</p> <p>2. I researched the BRD, worked on the proposal, and set up the Jira Board.</p> <p>3. Tomorrow I will do some more research and do some more touch ups on the proposal before we resubmit tomorrow night.</p>	<p>1. Yes. I need some help writing a site map.</p> <p>2. I looked up site maps</p> <p>3. Tomorrow i will go into office hours. Start site map if possible. Work on proposal.</p>	<p>1. Pretty blocked, HL Design document is very confusing.</p> <p>2. I did research on HL Design, and how to create an HL design document.</p> <p>3. I'll continue doing research, and will ask for help if I get really blocked.</p>
9/18	<p>1. Yes, I need approval of a template for the tech spec from the professor to ensure I am following the correct standards.</p> <p>2. Today I went to office hours to try</p>	<p>1. Yes, I found a template for a BRD, but I am still confused as to what exactly put into each section, and if this template is something that would be acceptable to the professor.</p>	<p>1. Yes, still have questions on site map</p> <p>2. Today I worked on proposal.</p> <p>3. Tomorrow I will start on the Site map.</p>	<p>1. Still pretty blocked, need further clarification on HL Design from instructor</p> <p>2. Just did a bit of googling and researched more about HL Design</p>

	<p>and talk to the professor although I was not able to stay long enough to be able to talk to him</p> <p>3. Tomorrow I hope that we get a response for the proposal in which if we are not approved I will continue revisions to whatever needs work</p>	<p>2. Today I did more research into the BRD and made some very minor modifications to the proposal.</p> <p>3. Tomorrow I will do some more research into the BRD and hopefully start writing up a bit of it, keeping in mind that I will most likely need to make modifications to whatever I write based on the professors instructions this coming Monday. I will also review and make any necessary modifications to the proposal if the professor gives any feedback on our next proposal submission.</p>		<p>3. Continue doing research on HL Design</p>
9/19	<p>1. Yes, I would like to make sure that the current understanding of a tech spec I have is inline with what the professor expects</p> <p>2. Today I read through an article detailing how to create a tech spec in order to gain insight and understanding</p> <p>3. Tomorrow I'll hopefully gain clarification of the assignment with the professor</p>	<p>1. Yes, still a bit confused as to what exactly he wants for the BRD. Also still waiting on proposal approval</p> <p>2. Today I did a little more research into the BRD and I also started writing a little bit of it.</p> <p>3. Tomorrow I hope to get confirmation as to what exactly the professor wants for each work item so we can formally start our Milestone 1 sprint and I can plan for the coming weeks before it is due.</p>	<p>1. Still blocked by HL Design</p> <p>2. Did another small amount of research.</p> <p>3. Continue doing research on HL Design.</p>	<p>1. Yes, questions on site map still. I think questions will be answered.</p> <p>2. Had work all day but did brainstorm a few ideas about what site map should look like.</p> <p>3. Tomorrow I will attend lecture and ask questions about site map. Then I will begin site map.</p>
9/20	<p>1. No I figured out site map</p> <p>2. Today I worked on site map and attended lecture</p> <p>3. Tomorrow I will</p>	<p>1. Only blocked by our proposal being rejected again.</p> <p>2. Today I reviewed the professors feedback on our proposal and made</p>	<p>1. Blocked by the denial of the proposal although believe the be clear to start work item</p> <p>2. Today I attended</p>	<p>1. Not blocked anymore, I found a template online which quantifies everything a little more clearly.</p>

	work on site map	adjustments to the proposal. I also attended lecture and got some clarification regarding the format for the Milestone 1 work items. 3. Tomorrow I will do more work on the BRD and proposal before resubmitting the proposal again.	lecture in which I found that there is no specific template to follow and instead get feedback from the professor 3. Tomorrow I Will continue working on my work item	2. Today I found a template for high level design. And i went to lecture 3. Tomorrow I will do more research on high level design
9/21	1. No, only by the proposal 2. I worked to create the template for the tech spec in which I will email the professor to get feedback 3. Tomorrow I will follow the template and begin filling out my work item	1. No, only by the proposal. 2. I did some more work on the BRD and went over the proposal again. 3. Tomorrow I will do some more work on the BRD and try to set up the Burndown charts for our Milestone 1 Sprint. I will also make any necessary revisions to the proposal if he gives us feedback on it by tomorrow.	1. Not blocked. I think I've figured out site map 2. Today i finished up most of site map. 3. Tomorrow I will finish site map. Work on proposal	1. Not blocked, however would still like to clear things up with professor 2. I did not work on the project today. 3. Tomorrow I will start filling in the High Level Design document
9/22	1. Half blocked, awaiting feedback from the professor on tech spec template 2. I went over the various templates and found one that may align with the textbook and emailed the professor to see if it aligns with his expectations 3. I will fill out the template I came to a consensus on and go to office hours tomorrow	1. No, only by proposal. 2. I made adjustments to the proposal based on his feedback. I did some work setting up the burndown charts for our first official sprint. I went to lecture and learned more about what he is looking for in the BRD. 3. Tomorrow I will do some more work on the BRD and hopefully finish setting up the burndown charts. I will also attend office hours to get answers to any more questions the team may have before	1. Not blocked. 2. I attended lecture and worked on site map. 3. Tomorrow I will go to office hours and send my site map in for review	1. Half blocked, I have the template but there is still a lecture on HL design to go over. 2. I worked a bit on the template, just filling in a few lines of the template. I emailed him today about the HL Design template. 3. Tomorrow I will go to office hours.

	3. Tomorrow I will be able to dedicate plenty of time to my work item and hopefully progress a lot	some more work on decision trees as needed and do more work on the BRD.	continue to work on the sitemap based on his feedback response	do more work on BRD and BRD use cases.
9/26	1. Yes, I needed to find what technologies we wanted to develop the project with 2. Today I did research on what is commonly used to build web applications to see what is most inline with the approved tech stacks 3. Tomorrow I will finish the draft of the tech spec then send in an email to receive feedback	1. No, only cause I messed up the email. 2. Today I added some use cases to the BRD. 3. Tomorrow I will add some more use cases and make any necessary revisions to the decision trees. I will also go to lecture and learn about HL design.	1. Not blocked 2. Today I went over professors feedback. 3. Tomorrow I will revise the site map based on the feedback	1. Yes on HL Design, no on BRD. 2. Today I worked on BRD, added a few points, and added a use case. 3. Tomorrow I will go to class and hopefully get specification on HL Design and do more work on BRD.
9/27	1. Slightly, waiting for feedback from professor on the tech spec 2. Today I finished the first draft of the tech spec and emailed the professor it to provide input 3. Tomorrow I will revise based off information learned in lecture and hopefully the feedback as well	1. No, just waiting on decision tree feedback. 2. Today I added more use cases to the BRD and went to lecture and learned about Tech Spec, Site Map, and a little on HL Design. 3. Tomorrow I will add more use cases to the BRD, make any other adjustments to the BRD before sending it in, make a GitHub and start putting our documents on it, and any other miscellaneous things.	1. Not Blocked at all. The lecture today cleared up what I need to change for site map 2. Today I worked on Site Map and went to lecture. I did it wrong so I must redo. 3. Tomorrow I will work on Site Map and BRD	1. 1/4 blocked. Im expecting the lecture on wednesday to clear up everything 2. I went to class and learned some about HL Design. Barely any work done on BRD. 3. Tomorrow I will start on HL Design, answering questions for our app pertaining to HL Design. Do more work on BRD.
9/28	1. Not blocked 2. Today I made revisions on the tech spec based off the professors feedback	1. Not blocked. 2. Today I added some more use cases to the BRD and made some revisions to the ones	1. No, not blocked 2. Today I brainstormed wireframe for site map	1. 1/4 blocked, waiting on HL design lecture 2. Created a rough HL Design doc,

	<p>and will send the revised version in for more</p> <p>3. Tomorrow I will attend lecture, finish up the tech spec, the help with the site maps</p>	<p>we currently have.</p> <p>3. Tomorrow I will work on the BRD more and attend lecture to learn about HL design. I will also revise the decision trees and send them in and the BRD if I haven't done so already.</p>	<p>3. Tomorrow I will finish the wire frames for site map. I will attend lecture.</p>	<p>answering questions from class</p> <p>3. Tomorrow I will be attending lecture, and begin concrete work on HL design.</p>
9/29	<p>1. Not blocked</p> <p>2. Made revisions based off the feedback from the professor, attending the class</p> <p>3. Tomorrow I will help with the HL Design</p>	<p>1. No.</p> <p>2. Today I added and revised some use cases on the BRD, I also went to lecture and learned about HL Design.</p> <p>3. Tomorrow I will do more work on the BRD and possibly HL design.</p>	<p>1. Not blocked</p> <p>2. Today I went to lecture and worked on site map. I sent email to professor for feedback.</p> <p>3. Tomorrow I will attend office hours. I will work on site map some more.</p>	<p>1. Not blocked</p> <p>2. Today I went to lecture and learned more about HL Design.</p> <p>3. Tomorrow I will attend office hours. I will begin HL Design</p>
9/30	<p>1. Not blocked</p> <p>2. Today I wasn't able to get to much</p> <p>3. Tomorrow I will work on HL Design</p>	<p>1. No.</p> <p>2. Today I adjusted the decision trees and made worked on the BRD. I also went to office hours to get feedback on the BRD and decision tree.</p> <p>3. Tomorrow I will finalize the decision tree and do some more work on the BRD. I also might do some work on the HL design or site map and will start uploading some documents to GitHub</p>	<p>1. No.</p> <p>2. Today I went to office hours and absorbed</p> <p>3. Tomorrow I will do more work on the Site map</p>	<p>1. No.</p> <p>2. Today I went to office hours.</p> <p>3. Tomorrow I will work on HL Design</p>
10/1	<p>1. Slight, confused on HL Design</p> <p>2. Today I added more to the tech spec and looked over HL Design</p> <p>3. Tomorrow I will get work done on HL Design</p>	<p>1. No.</p> <p>2. Today I revised the decision tree and worked on the BRD.</p> <p>3. Tomorrow I will do more work on the BRD and look over the site map.</p>	<p>1. No.</p> <p>2. Today I worked on site map.</p> <p>3. Tomorrow I will attend office hours and work on site map</p>	<p>1. Slightly, confused on all the aspects of HL Design.</p> <p>2. Dived into HL Design but everything is extremely rough.</p> <p>3. Tomorrow I will go to office hours and work on more</p>
